The MVVM Architecture

Prerequisites

This seminar was developed for software developers with extensive experience in Java Programming.

Duration

This seminar includes 4 academic hours.

Premium Training

This seminar can be delivered either in Hebrew or in English. It can be delivered either online, or in a Hybrid way that allows the participants to choose whether to attend the meeting room where the training takes place or to join online.

The Lecturer

This seminar is delivered by Haim Michael, an experienced well-known software development trainer with more than 25 years of experience in software development training, consulting and development. Haim has more than 25 years of experience in Java programming.

The Topics

This seminar introduces the MVVM architecture, and overviews the role of the Model, the View, and the ViewModel components. This seminar includes the development of a simple application that demonstrates a simple implementation of this architecture.
