

UML Use Case Diagrams

Prerequisites

This seminar was developed for software developers, software development managers, and project managers without any prior experience in software development.

Duration

This seminar includes 2 academic hours.

Premium Training

This seminar can be delivered either in Hebrew or in English. It can be delivered either online, or in a Hybrid way that allows the participants to choose whether to attend the meeting room where the training takes place or to join online.

The Lecturer

This seminar is delivered by Haim Michael, an experienced well-known software development trainer with more than 25 years of experience in software development training. Haim Michael is a certified OMG UML Professional.

The Topics

This seminar starts with a short overview of UML, continues with overviewing the benefits involved with using it, and concludes with a detailed overview of the UML Use Case diagram.
