

Generics in TypeScript

Prerequisites

This seminar was developed for software developers, that already have some experience in TypeScript.

Duration

This seminar includes 4 academic hours.

Premium Training

This seminar can be delivered either in Hebrew or in English. It can be delivered either online, or in a Hybrid way that allows the participants to choose whether to attend the meeting room where the training takes place or to join online.

The Lecturer

This seminar is delivered by Haim Michael, an experienced well-known software development trainer with more than 25 years of experience in software development training.

The Topics

This seminar was developed based on the usability cases for Generics in other programming languages, such as Java and C#. This seminar includes the following topics:

Introduction to Generics

Generic Classes

Generic Function

Generic Constraints
